Logitech Gamepad F710, Dual Vibration Feedback, Steam Support, D-Pad, 2.4 GHz Wireless

X-ка 1: The 2.4 GHz wireless connection uses a plug-and-forget nano-receiver that's so small you can insert it into a USB port on your computer and leave it there – even on laptop PCs.

X-ка 2: Your instincts will guide your actions over the familiar layout and you’ll be off and gaming in no time. Crafted for a console-like controlling experience and innovated from traditional design, F710 fits like a glove.

X-ка 3: Dual vibration motors let you feel every hit, crash and explosion in games that support vibration feedback for a more realistic and immersive experience.

X-ка 4: Standard D-pads rest on a single pivot point, resulting in mushy control. The D-pad glides over four individual switches for a more responsive, tactile feel.

X-ка 5: Easy to set up and use - Change the standard commands or adapt F710 for play with an unsupported title easily, using Logitech’s profiler software. Buttons and controls are fully programmable and can even mimic keyboard and mouse commands.

X-ка 6: Enjoy long, comfortable play sessions thanks to smooth curves and contoured rubber grips.

X-ка 7: Package Contents: Gamepad, Plug-and-forget nano-receiver, 2 AA batteries, Range-extending receiver cable, User documentation
